MOHANATHAS THUJEEBAN

Backend Software Developer | IT Demonstrator

+94 755420809 | thujee44@gmail.com | Colombo, Sri Lanka |LinkedIn

PROFESSIONAL SUMMARY

Backend software developer and IT demonstrator with industry experience building FinTech and digital banking systems, combined with hands-on academic mentoring experience guiding undergraduate students through project design and software development practice. Final-year Information Technology undergraduate with a strong foundation in programming, web and backend development, and database systems. Motivated to teach core and applied IT subjects, mentor students on real-world software engineering practices, and contribute to a supportive, student-centred learning environment at a growing campus.

TECHNICAL & TEACHING SKILLS

Teaching & Mentoring	Project design guidance, student advising, technical mentoring, Agile-style project supervision, code review feedback
Programming Languages	Java, Python, JavaScript, C++, Dart
Web & Backend Development	Spring Boot, Spring Security, React.js, Node.js, Next.js, NestJS
Mobile Development	Flutter
Databases	SQL Server, MySQL, MongoDB, Firebase
Cloud & Tools	AWS (basic), Git/GitHub, CI/CD pipelines, Postman, JIRA
AI & Emerging Tech	Google Gemini Pro, ChatGPT, Claude, basic NLP/ML integration

WORK EXPERIENCE

Backend Developer | EPIC Lanka (Pvt) Ltd *June 2026 – Present*

FinTech & Digital Banking Solutions

- Develop backend systems for the eKYC (electronic Know Your Customer) digital onboarding platform and the CDB self-service banking application, using Java, Spring Boot, and SQL Server.
- Design and implement RESTful APIs, database schemas, and business logic for secure, regulation-aligned digital banking features.
- Work within a microservices architecture, collaborating with cross-functional teams to deliver reliable software for financial services clients.
- Apply core computer science and software engineering concepts daily — object-oriented design, data modelling, API design, and secure authentication (JWT, Spring Security).

Software Engineer Intern | Neirah Tech Solutions *2024 – 2026*

- Contributed to full-stack web application development using React.js and Spring Boot, building and integrating features end-to-end.
- Worked with RESTful APIs and relational/non-relational databases (MySQL, MongoDB), applying core backend development principles.
- Collaborated with developers and product managers in Agile ceremonies, including sprint planning and progress reviews.
- Supported CI/CD pipeline usage and deployment processes for live software products.

ACADEMIC / INDUSTRIAL PROJECTS

BloomCare+ – Maternal Health Management System *2024*

Flutter · Spring Boot · Firebase · SQL · JWT

- Built a cross-platform mobile health application supporting MOH healthcare workflows, with a Spring Boot backend and Flutter frontend.
- Implemented secure JWT-authenticated REST APIs and data storage across Firebase and SQL data stores.

Prepaid & eSIM E-Commerce Platform *2024*

React.js · Spring Boot · MongoDB Atlas · Node.js · JWT

- Built a dual-portal (B2C/B2B) e-commerce web platform for the Norwegian telecom market.
- Implemented RESTful backend services with JWT authentication and MongoDB-based data storage.

AI-Powered Home Security System *2025*

Python · OpenCV · face_recognition · pyttsx3 · SMTP

- Developed a desktop application with real-time webcam-based motion and face detection and automated email alerts.
- Designed a modular architecture covering UI, enrollment, monitoring, alert, and voice-response modules.

Rephrasly – NLP-Powered Text Summarization App *2023*

Flutter · Flask · Firebase · Python · NLP/ML

- Built an AI-powered text summarization and paraphrasing application with Firebase authentication and Firestore data storage.

EDUCATION

Bachelor in Information Technology | University of Moratuwa, Sri Lanka *2026 – Present*

National Diploma in Technology – Information Technology | Institute of Technology, University of Moratuwa, Sri Lanka *2024 – Present*

GCE Advanced Level – Mathematics, Physics, Chemistry | Vavuniya Tamil M/M/V *Oct 2021*

CERTIFICATIONS & ACHIEVEMENTS

- IRC 2025 at ITUM – Best Project Award
- SQL (Advanced) Certificate – HackerRank
- Java Programming (Intermediate) Certificate – HackerRank
- Software Engineering Intern Certificate – HackerRank

ADDITIONAL INFORMATION

Languages	English (Intermediate), Tamil (Native), Sinhala (Conversational)
Soft Skills	Communication, Mentoring, Analytical Thinking, Collaboration, Time Management, Adaptability
Availability	On weekends
Work Authorization	Authorized to work in Sri Lanka
